

# **IKT International Conference 2025: AI, Drones, Sensors and Robots for Smart Sewers and Urban Drainage**

IKT International Conference  
2025:  
AI, Drones, Sensors and Robots  
for Smart Sewers and Urban  
Drainage

This international conference brings together experts and innovators to explore cutting-edge AI, robotics, and sensor technologies for real-time monitoring, predictive maintenance, and smarter infrastructure solutions.

The future of urban drainage and sewer management is here!

## **Key topics for Smart Sewer Systems and Urban Drainage:**

- AI – How digitalization can transform their management
- Drones and Robotics – Improving safety and cost-effectiveness
- Robotics – Automating maintenance for efficiency
- Sensor Technologies for Inspection & Real-Time Data – Enhancing decision-making
- Predictive Analytics – Preventing failures before they happen

**Programme:**

International Conference 2025: AI, Drones, Sensors and Robots  
for Smart Sewers and Urban Drainage  
2 – 3 April 2025

**Venue**

IKT – Institute for Underground Infrastructure  
Gelsenkirchen / Germany

**Who should attend?**

Municipalities, utilities, innovation teams, engineers,  
industry professionals, contractors and suppliers who are  
shaping the future of sewer systems and urban drainage!

**For delegates:** Registration

**For exhibitors:** Registration is open
