CIPP Liner for Sewer Rehabilitation

Quality Assurance from a municipality / network owner's perspective

Online: 09th April 2025, 10 - 14 h, CEST (UTC+2)

Online: 19th November 2025, 10 - 14 h, CET (UTC+1)

Prof. Dr. Bert Bosseler

Dipl.-Ing. Dieter Homann

„CIPP lining is the leading trenchless sewer rehabilitation technique but requires effective quality assurance by municipalities and network owners,“ says Prof. Dr. Bert Bosseler, our Scientific Director. In this workshop, he and Dieter Homann, Director of Materials Testing at IKT, will provide key insights into quality assurance for CIPP liner installation from the municipality/network owner's perspective.

- What are the different CIPP liner processes?
- Which quality inspections and tests are really important?
- What needs to be considered with CIPP liners for pressure pipes?
